Everyone's welcome to attend!*

Benevolent Missions of Atlanta

Our mission is dedicated to effectively harnessing and leveraging the time, talent, and resources of the Jamaica-U.S. Community to assist disadvantaged and at-risk children, who possess great potential, throughout the island of Jamaica and in the metro Atlanta area. BMA's goal is to help ensure that these children are prepared for a lifetime of socially responsible citizenship. Our focus is on elementary and middle school-aged children, with the objective of improving literacy and numeracy among such students, thus preparing them for a successful transition to high school.

A significant number of Jamaica's youths are exposed to very little, if any, of the technology that drives the world economy. As a result, they are not prepared to meet the challenges of the day. Benevolent Missions of Atlanta has reached out to bridge the divide by establishing a computer laboratory at The St Ann's Bay primary school in St. Ann, Jamaica. The second part of our mission is to reach at-risk middle school students in the City of Atlanta through a mentor program, which exposes them to a wide range of professions through the arts, math and science.

We believe that when adequate resources and nurturing are provided to at-risk children, their chance of success and positive contributions to society is greatly increased. Through the hard work, commitment, dedication, enthusiasm, and generous financial contributions of our members and donors, we are realizing BMA's goals. We invite you to make a difference by becoming a donor and/or volunteering your time to this charity and worthy mission.

BMA monthly meetings are held on first Tuesdays between 7:00 and 9:00 pm.
Our meeting location is La Madeleine Bistro at the Perimeter Center in Dunwoody.
